Too easy

By A Customer

The title boasts that there are 100 solos... There are a hundred but most of them are all just three line easy things that you can get out of a method book. No one would ever need to buy this book because it is only for begginers. If begginers bought it they would use it once and then be too good for it. I reccomend Arban's because they don't call it the trumpet bible for nothing.

Great book to get me back into trumpet playing

By wolverinesrule

I used to play trumpet and was looking to start up again. The music is great for beginners and for trying to relearn how to play. The music selection is great from easy to play to a bit more challenging. I recommend this book to anyone trying to learn for the first time or anyone trying to play the trumpet again.

Five Stars

By Jay

Perfect for a beginner who knows fingering and looking for easy but recognizable tunes
