Business and Society: Stakeholders, Ethics, Public Policy, 14e by Lawrence and Weber has continued through several successive author teams to be the market-leader in its field. This new edition highlights why government regulation is sometimes required as well as new models of business-community collaboration. The authors believe that businesses have social (as well as economic) responsibilities to society; that business and government both have important roles to play in the modern economy; and that ethics and integrity are essential to personal fulfillment and to business success. In addition, this textbook has long been popular with students because of its lively writing, up-to-date examples, and clear explanations of theory.

A very cost effective solution

By Zhaofeng Ye

Bought this book for my MBA CFclass. The content in the chapters are the same as the American version. The only difference in the book are that the data case at the end of each chapter is somewhat different from the American version; but you can find the updated data cases, which appear on the American version, on the

publisher's official site if your professor requires you to do one or some of them.

One more thing is that it takes a long long time to be shipped to you if you are buying from foreign sellers. So if you plan to get one of this from foreign sellers, anticipate at least two weeks before you actually can get the book.

Love the way this book is set up and written

By Sandra R. Beitler

Love the way this book is set up and written. I like that it uses very recent examples for the case studies and really facilitates my learning.

Apex Media is a ripoff schister company sending out books that should be incinerated for high prices.

By E-Dub

OK, ths book sucked and so did the course, but that is somewhat irrelevant, as I had to take it for my degree. I am more disappointed with Apex Media. They sent a book that looked like it was chewed on by a dog-- literally. I was beyond disappointed.
