Does your child wet the bed frequently? Have you tried everything to help them stop bedwetting but can't seem to find a solution? Help children overcome their bedwetting problems in a gentle, non-abrasive way with these hypnosis scripts designed especially for children.

This hypnosis book can be used in several ways. It is designed to be both a resource for professional and trainee hypnotherapists, as well as for people who want to create their own hypnosis recordings (for personal use only). It is an easy-to-use guide that can be tailored on a person-to-person basis.

There are three main parts to this book. We have included a Parent Information section, which explains the hypnosis process to parents and answers frequently asked questions that we've received in the past. It includes book suggestions and other helpful information for parents. We have also included two versions of the hypnosis script for you to choose from; the first script is geared for the younger child (roughly ages 3-8) while the second version is geared for older children (roughly 8-12). They have been proven to be equally effective among our customers.

The entire script is intended to be delivered in normal tone with normal breathing, making sure to honor any pause breaks for at least 15 seconds or longer.

Bed wetting is an O.K. book

By Jung

I found it very fundamental. There was nothing in it that made me feel warm and fuzzy. Perhaps I am expecting that miracle formula, for a very complicated problem. Enuresis is very difficult to work with and can have a variety of causes. I thought the scripts were o.k. and tried a couple without success, however this does not mean that with the correct client it could be very useful. For the cost I find it an O.K. book.
