DEGREES OF THE ZODIAC BY ESTHER V. LEINBACH PDF

Degrees of the Zodiac was written by noted astrologer Esther V. Leinbach and originally published by Macoy Publishing Company in 1973. This Revised Edition from the author's son, Kevin Leinbach, has been updated for the new Millennium, using the Author's original source material and research.

Popular Astrology takes into consideration only one factor: the location of the Sun in the Zodiac, the Sun Sign. Even some astrologers only consider the twelve signs of the Zodiac and disregard the individual 30 degrees that make up the total span of the sign. But the degrees are a very significant influence in the chart and more and more astrologers are discovering how important degrees are to horoscope interpretation. The 360 Degrees in the circle of the Zodiac are activated by the Sun, the Moon and the Planets, even the house cusps of every horoscope. These degrees help to account for the many different expressions of each individual sign.

Degree influences have often been seen as ethereal and mysterious, relying on symbolism to suggest potential expressions. Perhaps the advantage of symbols is that they can be interpreted in the current context directly. But symbols can also be quite difficult to decipher. This book was originally written to bring the symbolism into a descriptive, practically applicable format that can more easily be used in chart interpretation. The approach is psychological rather than symbolic. It was intended to be accessible to the novice as well as the professional astrologer. But when particular references are made to current insights or methods, there is some danger that degree descriptions can become outdated. This Revised Edition has been released to update the descriptions with a current perspective and incorporate a context and evolutionary perspective that was simply not in place when Degrees of the Zodiac was originally published.

A rare volume with keys to a relentless higher truth.

By Turtle Heart

I am a professional astrologer, among other works, for many years. I begin all my evaluations of a new chart,

a new person or client, by consulting this work. It is absolutely one of the best, most clear, and unrelenting astrological works ever published. It is not for the faint of heart. It tells the story of the degree without flinching or hiding the dark and down side. In my view, we need more works like this, that go to the truth of the symbols, degrees and positions revealed in a chart. Far too many astrologers use a very plastic and polite "cookbook formula" approach to texts on the subject. Most astrological books are so lightweight, revealing both an inability to see the shadows, and a lack of resolved to really speak the truth to the reader. While remaining elegant in language, this work is a great bottom line, raw and unvarnished look at the basic nature of the astrological chart before you. It is really a work for advanced student I think, for people who are serious about the study and who are determined to do work that is a service to human growth and self-awareness. Sadly, there are so few books on Astrology that can be said to pull this off. Work by Liz Greene, for example, are quite honest and thorough in their psychological language.

Amazing!

By Sally H.

The best zodiac degree interpretations I've read! This book covers all the subtle differences, in a clear and concise format. It's astonishing how different the same zodiac sign can be, depending on the exact degree position. If you're a Sabian or Kozminsky fan, this is must-have addition to your library! It will add worlds of depth to your horoscope readings.

The Essence of each degree!

By P.Ray

Esther Leinbach's 'Degrees Of The Zodiac' is an amazing tool for yourself or friends when determining the essence of every planet or aspect in a chart. It is best used as a meditative guide for determining your own feel for a particular degree. In the book, she highlights the connecting themes that each degree shares. Some degrees are very specific and cover shared themes or visions; perhaps a person focused on an unfulfilled vision of either their retirement or satisfaction with possessions. Another degree could describe a person concerned with an obsession for gaining "instant karma" from the world around them. Some degrees are overwhelmingly positive. Some degrees can be harsh. If there is a degree that is described with mostly negative connotations--such as my North Node at 27 Pisces--it is usually indicated that, to her knowledge, the degree has not been activated or evolved compared to other degrees.

It is a very meditative book and is supposed to illuminate recorded patterns throughout history. In the right hands this book can be a real eye-opener!
