Quick guide for DG auxiliaries

By Salim Badahdah

This is a good book or a guide for DG auxiliary systems basics with a lot of Illustrations to explain the system in details. The book materials can be used for training and the trainer can get good feed back from the trainee by doing a simple test using the tutorial questions available at the end of each section.

Udefull

By Claudia Foletti

I order this book because I was designing an industrial diesel auxiliary without any knowledge of it. I found it more than useful, since through it i gained the basic high level knowledge I needed to start my work and what to look for to go deeper.

Adequado

By yuri ferruzzi

Dentro das expectativas, muito bom e aplicável.

O Formato é A5, É bem básico, mas recomendado para quem quer se aprofundar.
