From Publishers Weekly

Fans of novelist Trigiani will be delighted with this guided tour through the author's family history via her grandmothers, Lucia and Viola. She lovingly details the women's lives and recounts the lessons she's learned while offering a fascinating look at U.S. history from the perspective of her Italian-American forebears. Both Lucia and Viola worked hard from an early age, cooking and cleaning among any number of chores, and parlayed their work ethic and expertise into strong careers. Viola started out as a machine operator and, later, co-owned a mill with her husband, while Lucia worked in a factory and then became a seamstress and storefront couturier. Her grandmothers also took pride in passing along wisdom to others; throughout her life, Trigiani benefited from their guidance regarding everything from marriage to money, creativity to religion. She credits them with telling good stories: "I mimicked their work ethic imagining myself in a factory, layering words like tasks until the work was done. I took away more than life lessons from their stories; I made a career out of it." Here, Trigiani combines family and American history, reflections on lives well-lived, and sound advice to excellent effect, as a legacy to her daughter and a remembrance of two inimitable women. From Booklist

It would seem, after reading Trigiani's *Don't Sing at the Table*, that most, if not all, of the well-loved author's best qualities came directly from observing and knowing her grandmothers. Both hardworking, Italian, and coated head-to-toe in their heritage, vivacious Viola Trigiani and tireless Lucy Bonicelli instilled in their children and, clearly, granddaughter Trigiani many simple, profound, and universal values. These addages Trigiani relays and expounds on in floridly, curlicue thoughts: own your own business; plan on the rainy day; good manners are not negotiable; and, of course, don't sing at the table (readers will pick up the book just to make sense of that one!). Soothingly and with clarity, the author speaks of eventually losing her grandmothers with the same gratitude as she describes the precious time she spent with them. Readers will find her strength and optimism helpful, and her legions of loyal fans will enjoy learning more about the women who influenced, inspired, and, according to Trigiani, made possible some of her best-selling fiction. -Annie Bostrom

Review

“Best-selling author Trigiani (Very Valentine) presents a loving paean to her Italian grandmothers... there is much warmth in these remembrances that will resonate with readers who enjoyed strong relationships with their own grandparents and know the value they can bring to our lives.” (Library Journal)

“[C]harming... comforting lessons for readers seeking a simpler way of life.” (Kirkus)

“Soothingly and with clarity.... Readers will find her strength and optimism helpful, and her legions of loyal fans will enjoy learning more about the women who influenced, inspired, and, according to Trigiani, made possible some of her best-selling fiction.” (Booklist)

“Trigiani combines family and American history, reflections on lives well-lived, and sound advice to excellent effect, as a legacy to her daughter and a remembrance of two inimitable women.” (Publishers Weekly)

“One of the reigning queens of women’s fiction.” (USA Today)

“Delightful, energetic. . . . Trigiani is a seemingly effortless storyteller.” (Boston Globe)

“Trigiani has certainly not lost her ability to breathe life into everything she writes.” (Roanoke Times)

“Well crafted work with sometime lyrical, sometimes flat-out-funny writing.” (Fort Worth Star-Telegram)

“Adriana Trigiani listens to her readers, then gives them what they want. ” (Richmond Times-Dispatch)

“Dazzling.” (USA Today)

"No one ever reads just one of Trigiani's wonderfully quirky tales. Once you pick up the first, you are hooked." —BookPage

New York Times bestselling author Adriana Trigiani shares a treasure trove of insight and guidance from her two grandmothers: time-tested, common sense advice on the most important aspects of a woman's life, from childhood to the golden years. Seamlessly blending anecdote with life lesson, Don't Sing at the Table tells the two vibrant women's real-life stories—how they fell in love, nurtured their marriages, balanced raising children with being savvy businesswomen, and reinvented themselves with each new decade. For readers of Big Stone Gap, Very Valentine, Lucia, Lucia, and Rococo, this loving memoir is the Trigiani family recipe for chicken soup for the soul

#### Inspirations

By Ninette B. Latronica

As an avid reader who follows the work of a certain author, I often wonder where they get their story lines, and how they develop their characters.. Adriana Trigiani not only writes fantastic novels, creating memorable characters, but in writing "Don't Sing At The Table", exposed who were the women behind the

creation of some of the best characters. I clearly see her grandmothers in my favorite character, Nella Castella, the heroine in the novel, Queen of the Big Time .All of Adriana's female characters are women of strength and determination, much like the many of the women I knew growing up.

As an Italian American woman, I related to Adriana's grandmothers. Many of my generation had grandmothers & great-aunts who were self-employed, independent, whose husbands served in the United States Military during World War I (the forgotten war), got their citizenship, and during that time, their wives became automatic citizens once they married. Many lost their husbands at a young age, most didn't remarry. My own grandmother set priorities and raised my mother alone, working hard at sometimes more than one job, while running a household.

I saw my own grandfather and great-uncles in her grandfather. These were people, though they were immigrants, were much more at ease in the American culture. All of that generation had a strong sense of identity, they were comfortable with who they were. They had a set of rules that not only they followed but expected everyone else to adhere to. Adriana emphasized how important their expectations were. She also did a great job of blending the old world and the new world. She devoted a few pages explaining how much outsourcing has affected us..how we have lost quality and craftsmanship. All in all, I highly recommend this book if you are a Trigiani fan, as she has let you into her life. It gives you an understanding on what inspires Adriana Trigiani.

Grandmothers Always Know Best

By Cathy Klein

I have read several of Trigiani's fiction books and love them. Adriana Trigiani is such a good story teller that this nonfiction book read just as quickly. It was quirky and touching and just very entertaining. By the time I had finished the book, I felt as if I knew her grandmother's and learned from them as well. My only wish is that I could see the pictures better on my Kindle so I may have to look those up separately. It was an excellent read that I would definitely recommend.

Petey's bookies

By James H. Dean

I have enjoyed all of Trigiani's novels but this just didn't capture me. I found it to be rather dull and perhaps only of interest to someone who knows the author or her family. I would not recommend this book to family or friends but I'll not give up on the author. She generally writes interesting books but again, this just didn't cut the mustard with me.
