Simple, helpful, amusing discussion of logical fallacies

By Gontropo

This is a great book. It is a pity that it is not easy to find, but it is worth the trouble. I return to this book again and again and always enjoy re-reading it.

It would be great if the book could be updated with more contemporary examples, to relate to the present generation.

When you read a book like this, you realise how much of what you hear and read is based on logical fallacies.

Highly recommended.

easy and fun

By Les Mizell

Easy to read and fun! A quick study can take truth to a new level in discussions. Own the discussion with this book.

Best simple book on logical fallacies

By Jeff Adams

For a simple book on Logical Fallacies, this is my favorite (out of a huge library of 3000+ nonfiction; 400+ on philosophy, psychology, psychiatry, counseling, logical reasoning, polemics, and apologetics). If you need a more comprehensive textbook-type book on Logical Reasoning, I recommend also purchasing Introduction to Logic by Copi, Cohen, and McMahon (<http://www.amazon.com/Introduction-Logic-14th-Edition-Irving/dp/0205820379>).
