A little disappointing....

By Radio Buff

The information presented is quite useful and I'm sure it's accurate but still, I thought I'd be getting some head's up info about "tells" for spotting a psychopath.. it's more like you'd have to have the person's criminal history, financial history, employment history, then you could answer 150 questions and get a accurate feel for where they are on the psychopath spectrum...

Not pleasant, but necessary

By Rick Cook

Not all psychopaths are the brutal murderers you see on television. There are plenty of heartless people without a conscience that you meet every day. And if you let them, they'll wreck your life. Navarro, a long time FBI agent shows you how to spot these predators in human form, no matter how charming, slick and empathetic they seem to be. The essay (book is too grand a term for this article-length publication) is built around a checklist of 150 questions that will help you see these people for what they really are.

Navarro's advice for dealing with a psychopath: Get as far away from him or her as possible.

A Must-Have for Fiction Writers

By SJ Reidhead

Once again, Joe Navarro has created a primer for writers. When working on my murder mysteries (which are

still in edits) I refer to Navarro's books on a regular basis. Like the others, this short, sweet, on Kindle, and to the point. It is a check-list of character traits of a psychopath.
