PDF

Time is running out for the Peculiar Children. With a dangerous madman on the loose and their beloved Miss Peregrine still in danger, Jacob Portman and Emma Bloom are forced to stage the most daring of rescue missions. They'll travel through a war-torn landscape, meet new allies, and face greater dangers than ever. Will Jacob come into his own as the hero his fellow Peculiars know him to be?

an amazing end to this trilogy, a series I'm sad to see finished

By Sarah L. Gruwell

Well this volume was a truly satisfying conclusion to the Peculiar trilogy, if a sad send off. I want more of this world, dang it! LOL It ties up all plot threads, adds more to the mythology of the Peculiar world, gives explanations where needed, and gives us a rousing, nail-biting conclusion that had me on the edge of my seat.

My particular favorite of this book was how much it built of the Peculiar world and its various "peculiarities". The bit with the souls, how they're stolen, and their ultimate uses especially made me shiver. They actually physically disturbed me. Seeing how this aspect of Peculiar life impacts everything else was eye opening. It determines how Peculiars live and survive now, what their various ultimate fates could be, and how they eventually die.

I also loved all the depth we get to Peculiar history and folklore. We learn all the answers for how Hollows came about and get to see into the stronghold of them and the Wights. The actual body that is the title of the book, the Library of Souls, was a very intriguing idea. What could really be called a religion for Peculiars gave the overall story such body and depth. It adds a mystical element to the story and world that I loved.

The characters were just as vibrant and real to me as in previous volumes. I loved exploring all our established characters. Getting an eye into Jacob's powers as they grew and expanded was especially interesting. His powers play a pivotal role in the book's ending but not in a way that one would expect. I was very pleasantly surprised. I also loved getting to explore Emma's and Alma's pasts more as well.

I also enjoyed meeting some new faces who would play big roles in the overall story. Bentham and his gray view of the world kept me intrigued; I loved exploring the Peculiar conflict through his eyes, siding with whomever could give him the better deal. Sharon was also a fun addition. I loved his special blend of humor and guts.

The whole book was filled with intense action, constant chases, frantic escapes, and a final showdown that blew my mind. Even when things slowed down to give some exposition or background, the tension level was still ratcheted up by overlying danger or from action sequences that bracketed those wordy sections. The finale to the book was mind-blowing. The reader never expects the alliances that are struck, the friends that betray, and the format in which everything is won.

This is truly a gem of a book, definitely being added to my best of 2015 shelf. It wraps up a world truly unique in fiction, not something that can be said every day. We say goodbye to characters both old and new, seeing them resolve all plot threads and predicaments by book's end. The story overall is incredibly tense and suspenseful, keeping the reader flipping page and page in rapid succession. I'm sad to see the world end but satisfied as well. That's a strange cocktail to feel and not one I feel after every read. Highly, highly recommended, not just this book but the whole series.

A fine finish

By YoyoMitch

Reading a trilogy is a gamble. The first book introduces the characters, the setting and the plot; the second creates the tension and drama that drives the story to a "cliff" from which the reader hangs until the final novel arrives and that installment brings to a conclusion the questions, mysteries raised in the first two installments with the heroes having faced life-threatening situations (sometimes) successfully. If the trilogy is a "success," by its completion the reader will feel: as satisfied as if they had completed an arduous journey, sad to say goodbye to people with whom they had traveled but joyful at having experienced a trip whose memories will last a life time. In all aspects, this book was a fitting completion of a most satisfying trilogy.

The "cliff" from which we were left hanging at the end of Hollow City was in a station of the London "tube" at the present time (Jacob, Emma, et al, having been forced through a time loop into this moment) amidst the smoke and rubble of a fierce battle fought with the wights. The survivors of the fight were facing a Hollowgast (a monster created when a Peculiar acts against his/her nature) who was intent on devouring them. The resolution of that moment was shocking and seemed overly contrived but was fitting for the story arc. The next 48-72 hours were relentless for Jacob and his crew as they searched for their missing companions and mentors.

As they searched London the side streets and familiar sights were welcoming while holding the potential for danger. Eventually, Jacob and his crew meet Sharon, a peculiar Peculiar who would take them through a loop to The Devil's Acre, "the most retched slum of Victorian England," where their friends were taken. This is the location of many addicted, conniving, thieving, untrustworthy Peculiar who could not "fit in" anywhere else. Its topography is the stuff of nightmares, its mysteries dark and plentiful and its intent is deception – all-in-all the perfect location for the final show down of "good" and "evil." In that final confrontation the young Jacob learns the power of wounds and the reality that some hurts will not heal because the one harmed chooses to hold onto the injury.

The last twenty-two pages may be the best writing of the series. The story is brought full-circle finding Jacob back where he started. The dangers he now faces, in many ways, are the most perilous of all. His definitions of "trust," "love," "protection" are challenged beyond comfortable limits by those who had the responsibility to teach him those concepts and protect him by their use. The book ends with "closure" but that doesn't stop Mr. Riggs from leaving some questions unanswered.

This is a Young Adult series and therefore has no explicit sex (what desire that is displayed is reflective of the furtive steps of teenagers experiencing their first romance), harsh language (there is some “colorful” language, however) but some of the details of the violence & its aftermath are quite graphic. As with the previous novels, this novel is illustrated with antique photographs collected from yard sales and flea markets; there seems to be fewer in this volume, but the ones present bring depth to the story, lending it a “sepia” hue. I will miss the Peculiar Children who were watched over by Ms. Peregrine. Actually, I will be more alert for the company of Peculiars in my present world. If I gleaned anything from this fictional series it is that being “peculiar” means ones power is unique. Such a realization raises the question of, “Just how peculiar am I?”

I really liked the series up until this point

By Scarlett

I really liked the series up until this point. Then it became so poorly written- a jumble of deus ex machina and just in the nick of time plot twists. It seemed really rush, jumping from scene to scene, with characters espousing new talents we knew nothing about. The character development skipped a million beats, a weak ending for a series I was originally enamored with.
