I Want This Green Man!

By Elysian Fields

Sweet and fun. This little book had an amazing story. I loved the characters, they were both bright and complex. The male was strong and determined, while the female was smart and confident. I loved the interactions between the two. I really loved how the author told the story of two different species falling in love without losing who they are. Each changed for their love, yet kept the greatness that made them individuals. I am pleasantly surprised at how much I loved the sci-fi alien romance of this story, I look forward to reading more in the future.

A Reading the Paranormal Review

By Kelly Rubidoux

Aww, guys. This one was fun. A human woman who just wants the chance to have her own family gets

matched up with a hunky alien trying to find someone to love. SHENANIGANS ENSUE. Well, not shenanigans, exactly. More like cultural differences. And mating fun! Sort of.

I mean, it takes a while to get to the mating part. FOR REASONS. Actually, it's because tall, sometimes-green, and hunky is worried about giving it to his new lady love. You know, because they REALLY GIVE IT TO THE LADIES.

That's understandable, really, since nobody wants to ruin their lady friend on their first time around.

On top of the relationship issues, the lovebirds are also dealing with some dissension in the ranks. As it turns out, not everybody can be trusted and you need to watch your back when you're in full-on mating mode. That's just a good rule of thumb in general, actually.

Bottom line: Liiiiiked it! Fun with a sometimes-green hunk.

Sexy aliens

By DR

This is a sexy sci-fi. Earth of the future is not too wonderful. It seems to be pretty totalitarian--even to the point of forcing women to incubate children if they are single by a certain age, children they don't get to love and raise. But, this unpleasant future also has guardian angels--the angelic type beings of the celestial mates organization that find a partner of another planet for the people who want one.

Our heroine wants a mate, wants children, wants to choose her own way--so she contacts the celestial mates organization and they find one for her on another planet. The first problem is that she has to get to their ship without getting stopped. The second problem is that the mate and she don't really understand each other's cultures.

Don't worry, love conquers all--with some hot sexy scenes along the way.
