"[A]uthor James Young shows himself to be a master of that science fiction sub-genre called 'Alternate History'."--Midwest Book Review

Adolf Hitler is dead. Great Britain lies prostrate, subdued under a storm of poison gas and incendiaries that have turned the great city of London into a blazing abattoir. The Royal Family's whereabouts are unknown, while Heinrich Himmler, new Fuhrer of the victorious Reich, prepares to dictate terms.

For RAF Squadron Leader Adam Haynes, London's destruction is the nightmare outcome of years spent fighting the specter of Fascism. With his own combatant status uncertain, Adam must rush to save as many of his Polish-speaking pilots as he can.

Great Britain's subjugation also has an immediate effect on Lieutenant (j.g.) Eric Cobb. Thrust unwillingly into combat between the Royal Navy and the Kriegsmarine, Eric must immediately make choices that not only affect himself, but will alter the course of history.

In the Pacific, Rear Admiral Tamon Yamaguchi witnesses firsthand the myriad opportunities that Germany's victory has provided for Japan. Defeated in China by Soviet forces after the Imperial Army foolishly attacked northwards in December 1941, Japan has not only changed governments to a Navy dominated cabinet, but also changed strategies. It is to the south, in the oil rich Dutch East Indies, that Nippon will find her destiny. Yamaguchi, as the new head of the Kido Butai, must develop a plan that prevents American interference while simultaneously husbanding the Imperial Japanese Navy's strength for a single, great Decisive Battle.

"[R]ecommend[ed] to anyone looking for a good war alternate history..."--Amazing Stories, America's First Sci-Fi Magazine

Excellent alternate history

By Amazon Customer

Excellent alternate history. Good premise, well developed. Combat scenes well done. Young's grasp of

technical issues, operations/logistics, and weapons systems of the time is truly impressive; and it's very clearly and interestingly explained.

Sustained, compelling narrative. A good story that carries you along. Highly recommended.

Speed-read through the obligatory "Family and Human Interest" scenes (unfortunately, that includes the first few pages - keep going, it gets much better); their essence is accurate, but the scenes are labored.

The dialogue tends to the leaden, but it's not too bad.

Looking forward to next volume!

Alternate time line soap opera

By Xinloi

I try to finish whatever novel I have; I just couldn't get passed 17 percent of this one. Great premise, but bogged down in sophomoric characters. Kept waiting, in vain, for it to get better.
