## From the Inside Flap

"This anthology presents the reader with a rich sampling of the ways in which American religion has been practiced. It implicitly challenges some of the standard temporal and thematic categories through which American religion has been understood. The volumes will be useful as reference works and in courses about American religious history. There is much here that does not appear in standard treatments of the subject."--  
Robert Wuthnow, Princeton University

## From the Back Cover

From Brand: Princeton University Press

# **RELIGIONS OF THE UNITED STATES IN PRACTICE, VOLUME 2. FROM BRAND: PRINCETON UNIVERSITY PRESS PDF**

Religions of the United States in Practice is a rich anthology of primary sources with accompanying essays that examines religious behavior in America. From praying in an early American synagogue to performing Mormon healing rituals to debating cremation, Volume 2 explores faith through action in the nineteenth and twentieth centuries.

The documents and essays consider the religious practices of average people--praying, singing, healing, teaching, imagining, and persuading. Some documents are formal liturgies while other texts describe more spontaneous religious actions. Because religious practices also take place in the imagination, dreams, visions, and fictional accounts are also included.

Accompanying each primary document is an essay that sets the religious practice in its historical and theological context--making this volume ideal for classroom use and accessible to any reader. The introductory essays explain the various meanings of religious practices as lived out in churches and synagogues, in parlors and fields, beside rivers, on lecture platforms, and in the streets.

Religions of the United States in Practice offers a sampling of religious perspectives in order to approximate the living texture of popular religious thought and practice in the United States. The history of religion in America is more than the story of institutions and famous people. This anthology presents a more nuanced story composed of the everyday actions and thoughts of lay men and women.
