Very good beginner's grammar text, but...

By Bighairydoofus

This is the first Russian grammar book I picked up and it's quite good, but Schaum's is better. Don't get me wrong, I've used and can recommend both, but if you only want one, get Schaum's Outlines of Russian Grammar by James S. Levine instead of this one.

6 of 6 people found the following review helpful.

Russian in plain english!

By Angie

This is a fantastic book which explains the complexities of Russian grammar in plain english. I must own half the books ever written on Russian grammar but this one just explained things in a simple straight forward manner giving excellent examples and the practice exercises were meaningful and worthwhile. I also liked the way it tackles grammar in small bite sized chunks building as you go without overwhelming you with new vocabulary.

2 of 2 people found the following review helpful.

Good buy and Excellent buy if bought used

By Bobby

I bought this book to just periodically review grammar and found the exercises very useful. The grammar explanations are sometimes terse, but quite adequate for the most part. I keep the book in a handy spot and occasionally do a few units of exercises to keep from getting rusty.
