Characterological Quandries-Working with Axis-II Disorders

By P. A. Southern

Otto Kernberg's insights into the rocks and shoals of personality disorders have been an invaluable aid in working with those who have Borderline, Narcissistic, and Antisocial Personalities, and the related types of Characterological disorders. As with any of the old school or psychoanalytic bent, don't be scared to use your thesaurus. Lord knows they never were!

key concepts re: borderline and narcissistic disorders...

By Craig Chalquist, PhD, author of TERRAPSYCHOLOGY and DEEP CALIFORNIA

....and highly recommended for understanding them. Although the author doesn't free himself entirely from the turgidity that marks much of the psychoanalytic literature, he lays out a number of clinically useful formulations having to do with his pioneering work with characterologically ill patients.

A good read if you like Kernberg and his Transference Focused ...

By Jonathan Weingarden

A good read if you like Kernberg and his Transference Focused Therapy. If I remember correctly, this delves deeper into the theory than practice, which I believe helps practitioners conceptualize the subjective, phenomenological experience of the person sitting across from them.
