About the Author

M. S. King is a private investigative journalist and researcher based in the New York City area. A 1987 graduate of Rutgers University, King's subsequent 30 year career in Marketing & Advertising has equipped him with a unique perspective when it comes to understanding how "public opinion" is indeed scientifically manufactured. Madison Ave marketing acumen combines with 'City Boy' instincts to make M.S. King one of the most tenacious detectors of "things that don't add up" in the world today. Says King of his admitted quirks, irreverent disdain for "conventional wisdom", and uncanny ability to ferret out and weave together important data points that others miss: "Had Sherlock Holmes been an actual historical personage, I would have been his reincarnation." King is also the author of *The War Against Putin: What the Government-Media Complex Isn't Telling You About Russia*. King's other interests include: the animal kingdom, philosophy, chess, cooking, literature and history (with emphasis on events of the late 19th through the 20th centuries).

THE BAD WAR: THE TRUTH NEVER TAUGHT ABOUT WORLD WAR II BY M S KING PDF

245 Pages / 500 Illustrations During the 75 years that have now passed since the end of the grand history-altering event known as World War II, only a single narrative of the great conflict has been heard. It is a story which the architects of the New World Order have implanted, no, POUNDED into the minds of three subsequent generations. Every medium of mass indoctrination has been harnessed to the task of training the obedient masses as to what the proper view of this event should be. Academia, news media, public education, book publishing, TV documentaries, Hollywood films, clergymen and politicians of every stripe all sing the same song. You know the familiar lyrics: "Led by Adolf Hitler; Germany, Italy and Japan tried to enslave the planet. The "good guys" of the "world community", led by Franklin Delano Roosevelt (FDR) and Winston Churchill, banded together and stopped them. Literally, not a day seems to pass without some sort of media reference to this incomplete and simplistic narrative; a story which oh-so-conveniently ignores the previous decades of critical history leading up to World War II, omits vital information from the actual war years, and outright fabricates lie after lie after lie. Indeed, the "official story" amounts to a manufactured mendacity of such mountainous dimensions that the human mind will have a hard time processing the actual truth of the grand event, no matter how compelling the case may be. Isn't it time you heard a different tune; at least for your consideration? Haven't you ever at least been curious as to what "the other side of the World War II story" was? If so, you ought to have a look at 'The Bad War', a heavily illustrated epic timeline that will transport you back to the mid 1800's; and then lead you on an exciting "you are there" journey right up through both World War I and World War II. Well-written, entertaining, and meticulously documented, 'The Bad War' is unique for its ability to condense so much real history into just 245 attention-riveting, illustration-rich pages. But do be forewarned. Your worldview may never be the same.

I was totally overwhelmed when I first read The Bad War in PDF-format

By The Truth Must Out

I was totally overwhelmed when I first read The Bad War in PDF-format. My immediate thought was that this is so easy to understand so I must send it to all my friends that I think need to know the truth about what happened. I could not do it without a book. To my great joy The Bad War was due to come out in print and even better in this extended version which covers even more areas of importance. I cannot state enough how impressed I am about the validity of facts and attention to detail this book has but still so easy to read.

This is a book with 300 short and informative texts accompanied by illustrative pictures to each text. It covers all the phases starting from 1848 when 50 or so controlled small “revolutions” wreak havoc in Europe, causing thousands of innocent deaths and ends with the Nuremberg trials with its predetermined orchestrated outcome that has nothing to do with a real “trial” but rather to put blame on the side that lost the war.

I have read many books on the World Wars but no one with this unique concept. I cannot other than give this book the highest of my recommendations.

It's Time to Open our Eyes

By Sebastián

Sometimes real events, real history, seems like a fantasy.

That is the sole purpose of the elite that controls the planet; create an imaginary world so people can't really determine what is real or unreal.

The whole industry of entertainment collaborates in this determination, powerful and occult members and famous people work hand to hand to fulfill this project.

People have been taught since childhood lies, half-truths about world history, scholar texts come from the same elite that controls the world and sell lies.

If you really want to know about some events in World War 2, or you want to acquire a different perspective about the conflict, you have to read this book.

It's time to open our eyes to reality, it's time to confront the liars that still control the world we live in.
