Series

By veronica lewis

First let me point out that this is a series of books from "The Billionaire's Indulgence to The Billionaire's Indulgence # 7. I don't know if this author is self-publishing, but since these books are reasonably priced I decided to start buying them and then I went and purchased all of them. I was getting them all for \$ .99. Each book is good and I enjoyed reading them, but left me to a point where I wanted more. Now that I have read

them all that have been written up to date; I have to wait until the author releases more; then I still won't know if it is the last one. So if you want to be in that state of conundrum then move on from this series, otherwise knock your self out and purchase, purchase, purchase!
